KANSAS Privilege Tax

TIPS TO IMPROVE THE PROCESSING OF YOUR RETURN

Your Kansas return is **imaged** on our computers, enabling us to process your return faster and with fewer errors. In order for our system to work, it is important that you use care in completing your return. The following tips will aid in more efficient processing of your return.

- Do not **staple** or otherwise **attach** pages of the return, payment voucher, or check together. Enclose them loosely in the envelope.
- Use only black or dark blue ink and write legibly.
- KDOR (Kansas Department of Revenue) uses your EIN (Employer Identification Number) as part of your tax account number. To ensure that your account information is credited properly, include your EIN on your return.
- Do not send photocopies of the return, send only the original.
- If you use a software package to produce your return, be sure it is approved by KDOR. Visit our web site at www.ksrevenue.org for a list of approved software vendors.
- If you are **reproducing your own forms**, contact KDOR for information on the approval process.

GENERAL INFORMATION

If any due date falls on a Saturday, Sunday, or legal holiday, substitute the next regular work day.

Who Must File a Return

Every national banking association, bank, trust company, federally chartered savings bank, and savings and loan association subject to taxation under K.S.A. 79-1106 *et seq.* must file a Kansas privilege tax return.

NOTE: Any taxpayer who owns, capitalizes or utilizes an affiliate with one of the affiliate's purposes being to make, hold or manage for, or on behalf of, the taxpayer, investments in securities which the taxpayer would be permitted to make for its own account may be required to file consolidated returns or combined reports for purposes of determining the tax liability under article 11 of chapter 79 of the Kansas Statutes Annotated as if such taxpayer and affiliate were one entity.

When to File

Calendar year: If your return is based on a calendar year, it must be filed no later than April 15, 2010.

Fiscal year: If your return is based on a tax year other than a calendar year, it must be filed no later than the 15th day of the fourth month following the end of the tax year.

Conformity to federal due dates: Kansas returns are due one (1) month after the federal due date. If the original federal due date is not the 15th day of the third month after the close of a taxable year, the financial institution is required to complete box "H" in the header and enclose a letter indicating the authorizing federal statute. Do not enter your extended due date.

Cessation of doing business: Kansas Privilege Tax returns are due within six (6) months of the date on which the taxpayer ceases to do business in Kansas.

Amended Returns: If the amended return will result in a refund, then it must be filed within three (3) years from the date the original return was due including any extension allowed pursuant to law, or two (2) years from the date the tax claimed to be refunded or against which the credit was paid, whichever of such periods expires later.

Where to File

Mail your return to: **KANSAS PRIVILEGE TAX, KANSAS DEPARTMENT OF REVENUE, 915 SW HARRISON STREET, TOPEKA, KS 66699-4000.**

If You Need Forms

See the back cover of this booklet for tax form information. Due to the sensitivity of KDOR's imaging equipment for return processing, be sure you use an original preprinted form or an approved computer generated form.

Accounting Period

The taxable year for Kansas is the same as the taxable year for federal income tax purposes. If your taxable year changes, or the method of your accounting is changed for federal income tax purposes, then the taxable year and method of accounting shall be similarly changed for Kansas privilege tax purposes.

Extension of Time to File

If you are entitled to a refund, an extension to file after the due date is not required.

If you are unable to complete your Privilege Tax return by the filing deadline, you may request an extension of time to file. If you filed federal Form 7004 with the IRS (Internal Revenue Service) for an extension of time, enclose a copy of that form with your completed K-130 return to automatically receive a six-month extension of time. Kansas does not have a separate extension request form.

Important: An extension of time to file is **NOT** an extension to pay. If you do not pay the tax amount due (may be estimated) by the original due date, you will owe interest and may also be charged a penalty on the balance due. To pay the balance due for an extension, use the Kansas payment voucher, Form K-130V, in this book and check the box indicating an extension payment.

Copy of Federal Return

You must enclose with Form K-130 copies of these federal return pages as filed with the IRS:

- Pages 1 through 4 of either the federal return or the consolidated federal return as filed with the IRS. If the return is a consolidated return, you must enclose a company-by-company spreadsheet of income and expense to total the consolidated federal taxable income and a company-by-company spreadsheet of the consolidated balance sheet including Schedules M-1 and M-2.
- **Federal schedules to support any Kansas modifications claimed on page 1, Form K-130.**
- Federal Forms 851, 1118, and 5471, as applicable.

Do not enclose copies of proforma returns. KDOR (Kansas Department of Revenue) reserves the right to request additional information as necessary.

Completing Your Return

All applicable lines on Form K-130 and Form K-130AS must be completed. Complete all boxes in the "Taxpayer Information" section of the return.

All taxpayers filing a combined return (single or multiple), or who are authorized to file using the alternative or separate accounting method, must complete lines 1 through 18 using the total combined income column from Schedule K-131.

Cessation of Business: A tax is imposed for the privilege of engaging in transaction or activity incidental or related to the cessation of doing business in Kansas, including cessation due to merger, consolidation, dissolution, liquidation or any other event. The tax will be measured by the net income for the tax year in which the taxpayer ceases to do business and will be computed using the same applicable rates as other privilege taxpayers. The tax will be due and owing within six months of the date on which the taxpayer ceases to do business in Kansas.

Estimated Tax

Every national banking association, bank, trust company, and savings and loan association shall pay estimated tax (K-130ES) if its Kansas Privilege tax liability can reasonably be expected to exceed \$500.

Any financial institution which began business in Kansas during this tax year is not required to pay estimated tax and no underpayment of estimated tax penalty will be imposed for this initial year.

ELECTRONIC PAYMENTS: To find out how to pay using EFT (Electronic Funds Transfer), visit our electronic services web site at www.webtax.org, or call toll-free 1-800-525-3901 (in Topeka call 296-6993).

Amending Your Return

Enclose with your amended return a copy, if applicable, of your amended federal return, a copy of any other state's amended return(s), any federal Revenue Agent's Report(s), or any federal adjustment letter(s).

You must file an amended Kansas return when there is a change (error or adjustment) on your Kansas return, on another state's return, or on your federal return. **Check the AMENDED box in the Taxpayer Information section of the K-130 if you are amending your 2010 Kansas return.**

Amended Federal Return: If you are filing an amended federal return for the same taxable year as your amended Kansas return, you must enclose a complete copy of the amended federal return and full explanations of all changes made on your amended Kansas return. If your amended federal return is adjusted or disallowed, it is necessary to provide KDOR with a copy of the adjustment or denial letter.

If you did not file a Kansas return when you filed your original federal return, and the federal return has since been amended or adjusted, use the information on the amended or adjusted federal return to complete your original Kansas return.

Federal Audit: Any taxpayer whose income has been adjusted by the IRS must file an amended return with Kansas and include a copy of the Revenue Agent's Report or adjustment letter showing and explaining the adjustments. These adjustments must be submitted within 180 days from the date the federal adjustments are paid, agreed to, or become final, whichever is earlier. Failure to notify the department within the 180 day period will cause the statute of limitations to remain open (KDOR can make adjustments for as many years back as necessary and interest and penalty computations will continue to increase).

Confidential Information

Income tax information disclosed to KDOR, either on returns or through department investigation, is held in strict confidence by law. KDOR, the IRS, the Multi-State Tax Commission and several other states have an agreement under which some tax information is exchanged. This is to verify the accuracy and consistency of information reported on federal and Kansas tax returns.

Definitions

Business Income: For tax years commencing after December 31, 2007, “business income” means: **1)** Income arising from transactions and activity in the regular course of the taxpayer’s trade or business; **2)** income arising from transactions and activity involving tangible and intangible property or assets used in the operation of the taxpayer’s trade or business; or **3)** income of the taxpayer that may be apportioned to this state under the provisions of the Constitution of the United States and laws thereof, except that a taxpayer may elect that all income constitutes business income.

Unitary Business: A multistate business is unitary when the operations conducted in one state benefit or are benefited by the operations conducted in another state or states. The essential test to be applied is whether or not the operation of the portion of the business within the state is dependent upon or contributory to the operations of the business outside of the state. If there is such a relationship, the business is unitary. Stated another way, the test is whether a business’ various parts are interdependent and of mutual benefit so as to form one business rather than several business entities and not whether the operating experience of the parts are the same at all places.

Activity Wholly Within Kansas—Single Entity: If a financial institution’s activity is carried on exclusively within Kansas the entire net income is subject to the Kansas Privilege Tax.

Activity Wholly Within Kansas—Consolidated: If two or more financial institutions file federal income tax returns on a consolidated basis, and if each of such financial institutions derive all their income and expenses from sources within Kansas, they must file a consolidated return for Kansas Privilege tax purposes.

Single Entity Apportionment Method: Any taxpayer having income from business activity which is taxable both within and without this state shall allocate and apportion net income.

Combined Income Method—Single Corporation Filing: When a group of financial institutions conduct a unitary business both within and without Kansas, the source of income shall be determined by the combined income of only those financial institutions which have a branch or office in Kansas.

The Kansas combined privilege tax method of reporting shall include the Schedule K-131.

A financial institution that files a combined report for Kansas purposes must submit a copy of the consolidated Federal Form 1120 and all schedules and statements necessary to support the taxable income reported on the Kansas return. Schedule K-131 must be used to determine income of the financial institution.

Combined Income Method—Multiple Corporation Filing: This method is the same as Combined Income Method—Single Corporation Filing except that any financial institution using the combined income method with more than one entity doing business in Kansas may file one Kansas return reporting the total combined income on that return and computing and paying the tax due on that return. Schedule K-131 must be used to determine the Kansas taxable income of each separate corporation. Schedule K-131 combined Kansas taxable income is then entered on line 18, K-130. The tax rate is then applied to the Kansas taxable income of each financial institution with one surtax exemption allowed for each privilege taxpayer. The total tax due for all corporations is then shown on line 22, Schedule K-131.

Alternative Accounting Method: If the uniform allocation and apportionment provisions do not fairly represent the extent of the taxpayer’s business activity in this state the taxpayer may petition for or the Secretary of Revenue may require, in respect to all or any part of the taxpayer’s business activity, if reasonable: a) Separate accounting; b) the exclusion of one or more of the factors; c) the inclusion of one or more additional factors; or d) the employment of any other method to effect an equitable allocation and apportionment of the taxpayer’s income. A copy of the letter from KDOR (Kansas Department of Revenue) granting the use of an alternative method must be attached to the return when filed. Enter the amount determined from your separate schedule on line 18, Form K-130.

Separate Accounting Method: The separate method of reporting income to Kansas is allowable only in unusual circumstances and with the permission of KDOR where the use of the three-factor formula does not fairly represent the taxpayer’s business activity.

Before a taxpayer, engaged in a multistate business, may separately account taxable income to Kansas, the following requirements shall be satisfied:

- The books and records are kept by recognized accounting standards to accurately reflect the amount of income of the multistate business which was realized in Kansas during the taxable period;
- The management functions of the business operations within Kansas are separate and distinct so that in conducting Kansas business operations the management within Kansas did not utilize or incur centralized management services consisting of operational supervision, advertising, accounting, insurance, financing, personnel, physical facilities, technical and research, sale/servicing or purchasing during the taxable period.
- The business operations within Kansas are separate and distinct and do not contribute to or depend upon the overall operations of the company, and there are no interstate, intercompany, or interdivisional purchases, sales or transfers during the taxable period.

If all three requirements are not satisfied, the taxpayer shall determine Kansas taxable income by use of the apportionment formula. Enter the amount determined from your separate schedule on line 18, Form K-130.

All financial institutions filing a combined return (single or multiple), or are authorized to file using the alternative or separate accounting method, must complete lines 1 through 18 using the total combined income column from Schedule K-131.

INCOME

LINE 1—FEDERAL TAXABLE INCOME FOR KANSAS PRIVILEGE TAX PURPOSES: This line must only include income and expense of national banking associations, federally chartered savings banks or trust companies.

All financial institutions filing a combined return (single or multiple), or are authorized to file using the alternative or separate accounting method, must complete lines 1 through 18 using the total combined income column from Schedule K-131. You are to complete lines 18 through 45 of the return, as applicable. If filing as a S corporation for federal purposes, enter the amount from Part IV, line 30. A copy of certain pages of the federal return must be enclosed in all cases. See instructions on page 3.

LINE 2—STATE AND MUNICIPAL INTEREST: Enter the total amount that was claimed as exempt income on the federal income tax return for the taxable year, less any related expenses directly incurred in the purchase of state or political subdivision obligations. If the bank has changed the method of accounting from cash to accrual, include the Section 481 adjustment on municipal interest using the same number of year spread allowed at the federal level.

LINE 8—NET INCOME BEFORE APPORTIONMENT: Add line 1 to line 6 and subtract line 7 and enter the result in line 8.

APPORTIONMENT AND ALLOCATION

LINE 9—NONBUSINESS INCOME-TOTAL COMPANY: Enter the total amount of nonbusiness net income everywhere that is to be directly allocated. Business income is defined in privilege tax law as all income to the extent that it may be treated as apportionable business income under the constitution of the United States.

Any taxpayer that claims nonbusiness income on the Kansas return is required to clearly demonstrate that the asset which generated the income is not used in the general operations of the company and is not managed or controlled by the same people who control the operations of the company. The taxpayer must also submit a schedule as required below. If the taxpayer does not demonstrate that the income is nonbusiness and does not submit the required schedule(s), the income will be considered to be business income by the Kansas Department of Revenue and the department will apportion that income as business income.

From the terms of income directly allocated, there shall be deducted the expenses related thereto. The term "expenses related thereto" as used in this paragraph, mean any allowable deduction or portion thereof directly attributable to such income and a ratable part of any other allowable deductions which cannot definitely be allocated to some item or a class of income.

A schedule must be submitted with the return showing 1) the gross income from each class of income being specifically allocated, 2) the amount of each class of related expenses together with an explanation or computations showing how amounts were computed, 3) the total amount of the related expenses for each income class, and 4) the net income for each income class. The schedules should provide appropriate columns as set forth above for items specifically assigned to

Kansas and also for times specifically assigned outside Kansas. An explanation must also be attached to explain specifically why each item of income does not arise from transactions and activity in the regular course of the financial institution's trade or business.

SPECIFIC LINE INSTRUCTIONS FOR FORM K-130AS

You must complete and enclose Parts V, VI, and VII, of Form K-130AS with your Kansas return if the financial institution is doing business inside and outside of Kansas and utilizing the apportionment formula to determine Kansas income.

PART V—APPORTIONMENT FORMULA

Part V is to be used by corporations with income derived from sources both within and without Kansas for the purpose of allocating and apportioning income. All business income is multiplied by a fraction, the numerator of which is the property factor plus the payroll factor plus the receipts factor, and the denominator of which is three (3). Descriptions of each of the factors in the three-factor formula follow. The laws applicable to these factors are contained in K.S.A. 79-1130 through 79-1132. You may access these laws in the Kansas Department of Revenue's Policy Library at: www.ksrevenue.org.

Line A—Property Factor: The property factor shall include all real and tangible personal property owned or rented and used during the income year and the average value of the taxpayer's loan and credit card receivables. Property used in connection with the production of nonbusiness income shall

be excluded from the factor. Property shall be included in the property factor if it is actually used or is available for or capable of being used during the income year for the production of business income. Property used in the production of business income shall remain in the property factor until its permanent withdrawal is established by an identifiable event such as its sale or conversion to the production of nonbusiness income.

The numerator of the property factor shall include the average value of the taxpayer's real and tangible personal property owned and located or used in this state during the income year plus the value of rented real and tangible personal property so used. Property owned by the taxpayer in transit between locations of the taxpayer shall be considered to be at the destination for purposes of the property factor. Property in transit between a buyer and seller which is included by a taxpayer in the denominator of its property factor in accordance with its regular accounting practices shall be included in the numerator according to the state of destination. Transportation property is included in the numerator to the extent the property is used in this state. If the extent of the use of any transportation property within this state cannot be determined, then the property will be deemed to be used wholly in the

state in which the property has its principal base of operations. A motor vehicle will be deemed to be used wholly in the state in which it is registered.

Property owned by the taxpayer shall be valued at its original cost or other basis of such property for federal income tax purposes without regard to depletion, depreciation or amortization. Property rented by the taxpayer is valued at eight times the gross annual rental rate. As a general rule the average value of property owned by the taxpayer shall be determined by averaging the values at the beginning and ending of the income year. However, the Director of Taxation may require or allow averaging by monthly values if such method of averaging is required to properly reflect the average value of the taxpayer's property for the income year.

Loans are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a loan is charged off in whole or in part for federal income tax purposes, the portion of the loan charged off is not outstanding. Loans are considered to be located within this state if it is properly assigned to a regular place of business of the taxpayer within this state at the time the loan was made; or, in the case of a loan which is assigned by the taxpayer to a place without this state which is not a regular place of business, it shall be presumed, subject to rebuttal by the taxpayer on a showing supported by a preponderance of the evidence, that substantive contacts regarding the loan occurred within this state if, at the time the loan was made the taxpayers commercial domicile was within this state.

Credit card receivables are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a credit card receivable is charged off in whole or in part for federal income tax purposes, the portion of the receivable charged off is not outstanding. In determining the location of credit card receivables, credit card receivables are treated as loans and shall be subject to the same rules outlined above.

Line B—Payroll Factor: The payroll factor shall include the total amount paid by the taxpayer for compensation during the tax period. The total amount "paid" to the employees is determined upon the basis of the taxpayer's accounting method. If the taxpayer has adopted the accrual method of accounting, all compensation properly accrued shall be deemed to have been paid. Notwithstanding the taxpayer's method of accounting, at the election of the taxpayer, compensation paid to employees may be included in the payroll factor by use of the cash method if the taxpayer is required to report such compensation under such method for unemployment compensation purposes. The term "compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services. Payments made to an independent contractor are excluded. Only amounts paid directly to employees are included in the payroll factor. The compensation of any employee on account of activities which are connected with the production of nonbusiness income shall be excluded from the factor. The denominator of the payroll factor is the total compensation paid everywhere during the income year.

The numerator of the payroll factor is the total amount paid in Kansas during the income year by the taxpayer for compensation. Compensation is paid in Kansas if any one

of the following tests, applied consecutively, are met: (a) The employee's service is performed entirely within Kansas; (b) The employee's service is performed both inside and outside Kansas, but the service performed outside Kansas is "incidental" to the employee's service inside Kansas (the word incidental means any service which is temporary or transitory in nature, or which is rendered in connection with an isolated transaction); (c) If the employee's services are performed both inside and outside Kansas, the employee's compensation will be attributed to Kansas: (i) if the employee's principal base of operations is in Kansas; or (ii) if there is no base of operations in any state in which some part of the service is performed, but the place from which the service is directed or controlled is in Kansas; or (iii) if the base of operations and the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the employee's residence is in Kansas. The term "base of operation" is the place from which the employee starts his work and to which he customarily returns in order to receive instructions from the taxpayer or communications from his customers or other persons, or to replenish stock or other materials, repair equipment, or perform any other functions necessary to the exercise of his trade or profession at some other point or points.

Line C—Receipts Factor: The receipts factor is defined as a fraction, the numerator of which is the receipts of the taxpayer in this state during the taxable year and the denominator of which is the receipts of the taxpayer within and without this state during the taxable year. The receipts factor shall include only those receipts which constitute business income and are included in the computation of the apportionable income base for the taxable year. The method of calculating receipts for purposes of the denominator is the same as the method used in determining receipts for purposes of the numerator. The following are rules for determining numerator "receipts" of various activities:

(1) Receipts from the lease of real property—The numerator shall include receipts from the lease or rental of real property owned by the taxpayer if the property is located in Kansas or receipts from the sublease of real property if the property is located in Kansas.

(2) Receipts from the lease of tangible personal property—The numerator shall include receipts from the lease or rental of tangible personal property owned by the taxpayer if the property is located in Kansas when first placed in service by the lessee. Receipts from the lease or rental of transportation property owned by the taxpayer are included in the numerator to the extent that the property is used in this state. If the extent of the use of any transportation property within Kansas cannot be determined, then the property will be deemed to be used wholly in the state in which the property has its principal base of operations. A motor vehicle will be deemed to be used wholly in the state in which it is registered.

(3) Receipts from credit card receivables—The numerator shall include interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to card holders, such as annual fees, if the billing address of the card holder is in Kansas.

(4) Receipts from merchants discount—The numerator includes receipts from the merchants discount if the commercial domicile of the merchant is in Kansas. Such receipts shall be computed net of any card holder charge backs, but shall not be reduced by any interchange transaction fees or by any issuer's reimbursement fees paid to another for charges made by its card holder.

(5) Receipts from services not otherwise apportioned shall be included in the numerator if the service is performed in Kansas. If the service is performed in and out of state, the numerator includes receipts from services not otherwise apportioned under this section, if a greater proportion of the income-producing activity is performed in Kansas based on cost of performance.

(6) Receipts from investment assets and activities and trading assets and activities—The numerator shall include those amounts attributable to Kansas.

(a) Interest, dividends, net gains, but not less than zero, and other income from investment assets and activities and from trading assets and activities shall be included in the receipts factor. Investment assets and activities and trading assets and activities include but are not limited to: Investment securities; trading account assets; federal funds; securities purchased and sold under agreements to resell or repurchase; options; futures contracts; forward contracts; notional principal contracts such as swaps; equities; and foreign currency transactions. With respect to the investment and trading assets and activities described in subparagraphs (A) and (B) of this paragraph, the receipts factor shall include the amounts described in such subparagraphs.

(A) The receipts factor shall include the amount by which interest from federal funds sold and securities purchased under resale agreements exceeds interest expense on federal funds purchased and securities sold under repurchase agreements.

(B) The receipts factor shall include the amount by which interest, dividends, gains and other income from trading assets and activities, including but not limited to assets and activities in the matched book, in the arbitrage book, and foreign currency transactions, exceed amounts paid in lieu of interest, amounts paid in lieu of dividends, and losses from such assets and activities.

(b) The numerator of the receipts factor includes interest, dividends, net gains, but not less than zero, and other income from investment assets and activities and from trading assets and activities described in paragraph (a) of this subsection that are attributable to this state.

(A) The amount of interest, dividends, net gains, but not less than zero, and other income from investment assets and activities in the investment account to be attributed to this state and included in the numerator is determined by multiplying all such income from such assets and activities by a fraction, the numerator of which is the average value of such assets which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all such assets.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount described in

subparagraph (A) of paragraph (a) of this subsection from such funds and such securities by a fraction, the numerator of which is the average value of federal funds sold and securities purchased under agreements to resell which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all such funds and such securities.

(C) The amount of interest, dividends, gains and other income from trading assets and activities, including but not limited to assets and activities in the matched book, in the arbitrage book and foreign currency transactions, but excluding amounts described in subparagraphs (A) or (B) of this paragraph, attributable to this state and included in the numerator is determined by multiplying the amount described in subparagraph (B) of paragraph (a) of this subsection by a fraction, the numerator of which is the average value of such trading assets which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all such assets.

(D) For purposes of this paragraph, average value shall be determined using the rules for determining the average value of tangible personal property.

(c) In lieu of using the method set forth in paragraph (b) of this subsection, the secretary of revenue may permit or require in order to fairly represent the business activity of the taxpayer in this state, the use of the method set forth in this paragraph.

(A) The amount of interest, dividends, net gain, but not less than zero, and other income from investment assets and activities in the investment account to be attributed to this state and included in the numerator is determined by multiplying all such income from such assets and activities by a fraction, the numerator of which is the gross income from such assets and activities which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all such assets and activities.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount described in subparagraph (A) of paragraph (a) of this subsection from such funds and such securities by a fraction, the numerator of which is the gross income from such funds and such securities which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all such funds and such securities.

(C) The amount of interest, dividends, gains and other income from trading assets and activities, including but not limited to assets and activities in the matched book, in the arbitrage book and foreign currency transactions, but excluding amounts described in subparagraphs (A) or (B) of this paragraph, attributable to this state and included in the numerator is determined by multiplying the amount described in subparagraph (B) of paragraph (a) of this subsection by a fraction, the numerator of which is the gross income from such trading assets and activities which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all such assets and activities.

(d) If the taxpayer elects or is required by the secretary of revenue to use the method set forth in paragraph (c) of this subsection, it shall use this method on all subsequent returns unless the taxpayer receives prior permission from the secretary of revenue to use, or the secretary of revenue requires, a different method.

(e) The taxpayer shall have the burden of proving that an investment asset or activity or trading asset or activity was properly assigned to a regular place of business outside of this state by demonstrating that the day-to-day decisions regarding the asset or activity occurred at a regular place of business outside this state. Where the day-to-day decisions regarding an investment asset or activity or trading asset or activity occur at more than one regular place of business and one such regular place of business is in this state and one such regular place of business is outside this state, such asset or activity shall be considered to be located at the regular place of business of the taxpayer where the investment or trading policies or guidelines with respect to the asset or activity are established. Unless the taxpayer demonstrates to the contrary, such policies and guidelines shall be presumed to be established at the commercial domicile of the taxpayer.

(7) Other receipts, if applicable—The numerator of the receipts factor includes other receipts pursuant to the rules set forth in K.S.A. 79-3286, 79-3287 and 79-3288, and amendments thereto.

(8) Interest from loans secured by real property—The numerator shall include interest and fees or penalties in the nature of interest from loans secured by real property if the property is located within the state. If the property is located both within this state and one or more states, it shall be included in the numerator if more than 50% of the fair market value of the real property is located within the state. If more than 50% of the fair market value of the real property is not located in any one state, the receipts shall be included in the numerator of the receipts factor if the borrower is located in Kansas.

(9) Interest from loans not secured by real property—The numerator shall include interest and fees or penalties in the nature located in Kansas.

(10) Net gains from the sale of loans—The numerator shall include net gains from the sale of loans. Net gains are determined by a fraction, the numerator includes the interest and fees or penalties in the nature of interest from loans in this state and the denominator is the total amount of interest and fees or penalties in the nature of interest from loans.

(11) Net gains from the sale of credit card receivables—The numerator shall include net gains from the sales of credit card receivables multiplied by a fraction, the numerator of which is the amount included in the numerator of the receipts factor of credit card receivables and the denominator of which is the taxpayers total amount of interest and fees or penalties in the nature of interest from credit card receivables and fees charged to card holders.

(12) Loan servicing fees—The numerator shall include loan servicing fees derived from loans secured by real property multiplied by a fraction, the numerator of which is the amount

included in the numerator of the receipts factor of interest from loans secured by real property, and the denominator is the total amount of interest and fees or penalties in the nature of interest from loans secured by real property; loan servicing fees from loans not secured by real property are also multiplied by a fraction of interest and fees or penalties for loans not secured by real property. If the taxpayer receives loan servicing fees for servicing secured or unsecured loans, the numerator shall include the fees if the borrower is located in Kansas.

(13) Credit card issuer's reimbursement fees—The numerator shall include all credit card issuer's reimbursement fees multiplied by a fraction, the numerator of which is the amount included in the numerator of the receipts factor of credit card receivables and the denominator is the taxpayer's total amount of interest and fees or penalties in the nature of interest from credit card receivables and fees charged to card holders.

(14) All receipts which would be assigned to another state in which the taxpayer is not taxable shall be included in the numerator of the receipts factor, if the taxpayer's commercial domicile is in Kansas.

Line D—Total Percent: If you are utilizing the three-factor formula to apportion income to Kansas, add lines A, B, & C.

Line E—Average Percent: Divide line D by the number of factors used in the formula. For instance, if the corporation does not have payroll anywhere, divide by 2.

CONSISTENCY IN REPORTING

In completing Forms K-130 and K-130AS, if, with respect to prior tax years and to filing other states' tax returns, the taxpayer departs from or modifies the manner in which income has been classified as business income from nonbusiness income, in valuing property or of excluding or including property in the property factor, in the treatment of compensation paid in the payroll factor, or in excluding or including gross receipts in the receipt factor, the taxpayer shall disclose by separate attached schedule the nature and extent of the variance or modification. Only inconsistencies in the denominators of the property, payroll, and receipts factors which materially affect the amount of business income apportioned to Kansas need be disclosed. Inconsistencies in the determination of nonbusiness income and in the denominators of the factors due to a difference in state laws or regulations must be identified by that state's statute or regulation section number and shown on the separate schedule. The amount of each inconsistency by state is to be shown.
